PocketPC Battery and Memory Monitor, displays the battery charge percent, estimated remaining battery time, and available storage memory, on the today screen of your PocketPC. An advanced algorithm accurately calculates the remaining battery time, based on your usage profile and displays this information on your today screen..

### Features:

- Display remaining battery percentage
- Choose between 3 display modes : (graphic only, text only, graphic + text)
- Displays estimated remaining time in days, hours, minutes and seconds.
- Lightweight software. Uses very little memory, storage space and Today screen area.
- Updates are completely free, for lifetime, for this software.
- You can redownload your software anytime you wish, completely free, for lifetime.

### PocketPC Battery and Memory Monitor Pricing and Availability

**PocketPC Battery and Memory Monitor** works on any Windows Mobile PocketPC (ARM CPU) and costs \$7.45(USD). Additional information, as well as a free demo version, are available at <http://www.exosyphenstudios.com/>
