Announcing Rail Adventures 3D for the iPhone and iPod

Cluj-Napoca, Romania, European Union, December 19, 2009

exosyphen studios, a game development studio with a long standing experience and reputation, is pleased to announce a new game for the iPhone and iPod.

Rail Adventures is a fast paced 3D action racer game. It combines the fun of riding an old mine cart on an abandoned railroad, with action elements found in 3D shooters. It's the perfect game for iPhone gamers who like railroads, adventures and fast paced action, all in a 3D game.

An ancient curse has frozen everything on the old mountain. You have to escape from the mountains before it's too late.

Hop on a terrifying and fast paced ride on an abandoned old railway. Ride through a lost mine, across a viaduct, on the edge of the mountain and more spectacular sceneries, in this action packed 3D game for the iPhone. Shot skeletons, monsters, bats, zombies and more as you race your way through the mountains.

Collect gold bars, ammo and health through your race. Avoid picking up exploding boxes and jump through obstacles.

Rail Adventures 3D is available for \$1.99 in the Apple App Store. The game can be played on any iPhone or iPod device.

About exosyphen studios

exosyphen studios was founded in 2003 and focuses primarily on game development, established in Romania (inside the European Union), author of several successful games and software titles.
